MEDIA RELEASE

Slow-No-Wake Removed From Northern Portion of Rock River

For Immediate Release

Date: June 08, 2020

Contact Person

Deputy Eric Cisneros
608-757-7941

According to the US Geological Survey Gauge on Lake Koshkonong, the water level for the Rock River is 7.98 feet. County Ordinance allows for an abeyance of the slow-no-wake speed restriction when water levels are at 8.0 feet or less on the portion of the Rock River downstream from the northern Rock County Line to the Indianford Dam.

Therefore, the Sheriff's Office is removing the previously declared slow-no-wake speed restriction on this portion of the river.

Until the Afton gauge reports water levels below 6.50 feet, the Rock River downstream from the Indianford Dam to the Beloit Rock Town Line Bridge will remain under a slow-no-wake speed restriction.

Deputies will begin removing slow-no-wake signs along the river at all public access points between the northern Rock County Line and the Indianford Bridge.

TROY J. KNUDSON
